 SUITE 206
 FORT MYERS, FL 33912

To Whom It May Concern:

As required by the Safe Drinking Water Act, Lee County Utilities (LCU) is required to provide our customers information about their drinking water. The U.S. Environmental Protection Agency and the State of Florida are allowing Public Water Systems the option to place their Annual Water Quality Report on a public website instead of a direct mailing.

In an effort to reduce cost and environmental waste, LCU's 2016 Water Quality Report will be available at www.leewaterquality.com.

Because you are a master meter account (one account serving multiple customers) or manage a master meter property, Lee County Utilities is unable to notify the residents within your community that the report is available online.

We are providing you with a flyer to copy and post in common areas to announce the availability of the report online or how to request a hard copy.

LCU would like to thank you in advance for your understanding in this effort. If you have any questions regarding this change, please contact Patty DiPiero at 239-533-8534 or dipierpm@leegov.com.

Sincerely,

Patricia DiPiero
 Legislative and Compliance Programs Manager

Recycled Paper

Would you like to know more about your drinking water?
